# Personal Reflection

What activity, topic, or concept gives you the feeling that PJ experiences when he's working on a fire?

Where in your current context are you able to do that thing?

Can Chapter Leadership be another way to incorporate that thing into your routine? How?

# Turn and Talk

We hope Chapter Leadership lies at the intersection of  
**inspiration x professional progression.**

Within your tables, share your version of PJ's fire and answer one or both of the following prompts:

How does chapter leadership connect to your “fire”?

How might chapter leadership support your professional progress?
